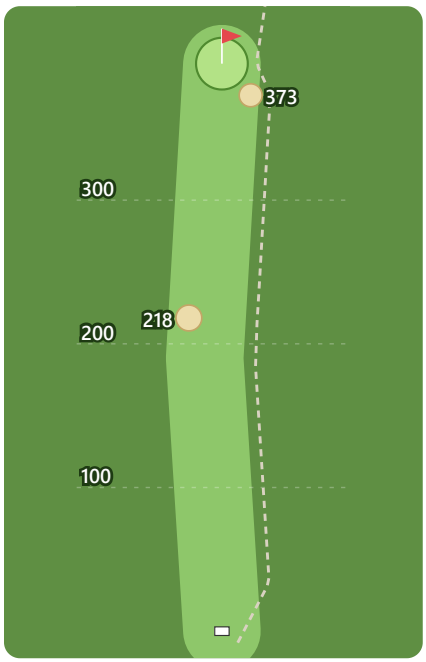
Hole by hole

Distances on each hole card are measured from the Club tees along the line to the pin. Each hole has its own wind for the round, described as you stand on the tee (the arrow points the way it blows; the Daily Three sets one wind of its own). Green speed is on the stimpmeter: higher is faster.

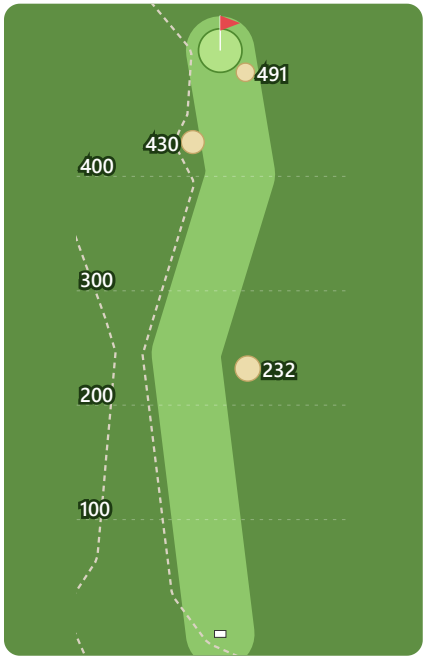
Hole 1 · First Dune



Par	4
Yards	396 Club · 333 Forward · 416 Back
Wind	↗ 12 mph helping, from the left
Green	about 36 yards across, slopes 0.7% from back to front, speed 10.6
Hazards	Bunker 218 yd left · bunker 373 yd right (greenside)

A generous opening fairway narrows at a pair of deep pot bunkers. Take the safe side and leave a full approach.

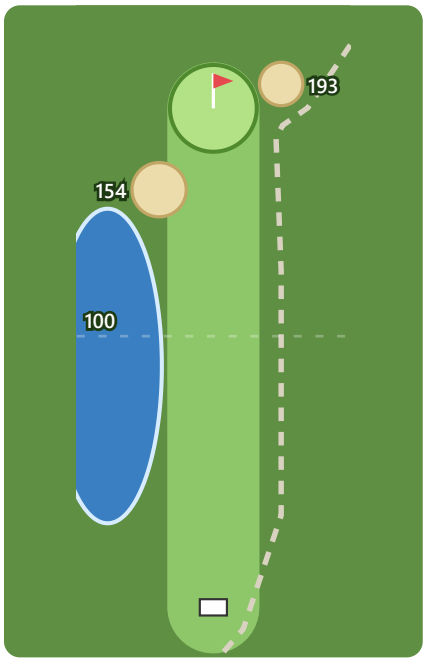
Hole 2 · Grey Channel



Par	5
Yards	520 Club · 439 Forward · 540 Back
Wind	↗ 15 mph helping, from the left
Green	about 38 yards across, slopes 0.9% from back-right to front-left, speed 10.7
Hazards	Bunker 232 yd right · bunker 430 yd left · bunker 491 yd right (greenside)

The first par five plays downwind. Chase the green in two or lay back short of the central pots.

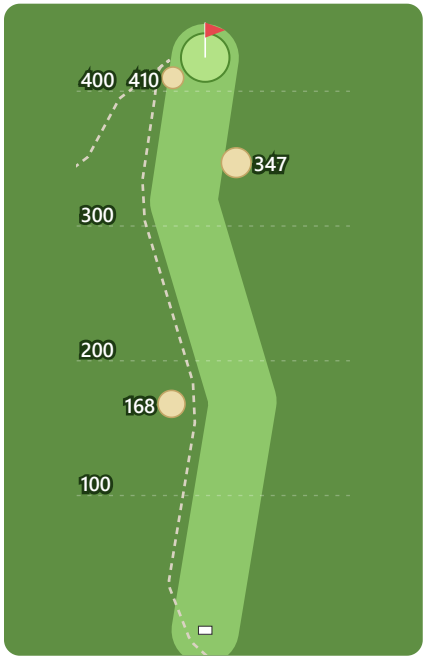
Hole 3 · Gannet



Par	3
Yards	184 Club · 155 Forward · 204 Back
Wind	→ 17 mph from the left
Green	about 32 yards across, slopes 1.3% from right to left, speed 10.8
Hazards	Bunker 154 yd left · bunker 193 yd right (greenside) · water left from 31 to 147 yd

An exposed one-shotter. The sea-side miss is water; the broad front gives a sensible running route in.

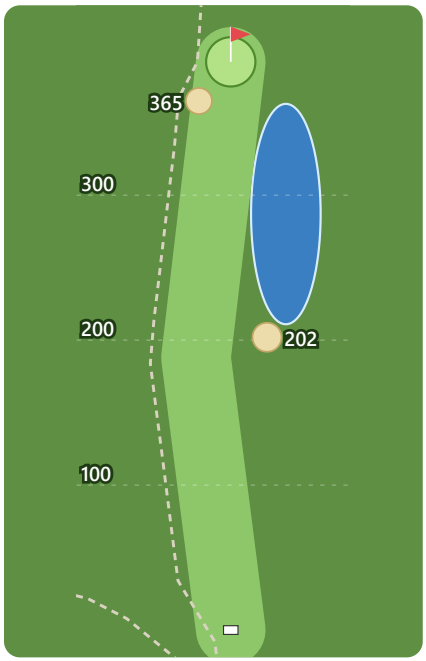
Hole 4 · Rookery



Par	4
Yards	435 Club · 368 Forward · 455 Back
Wind	↑ 14 mph behind you (helping)
Green	about 36 yards across, slopes 0.8% from back-left to front-right, speed 10.6
Hazards	Bunker 168 yd left · bunker 347 yd right · bunker 410 yd left (greenside)

A dune-ridge tee shot hides the landing area. Favor the left half for the clear angle into the raised green.

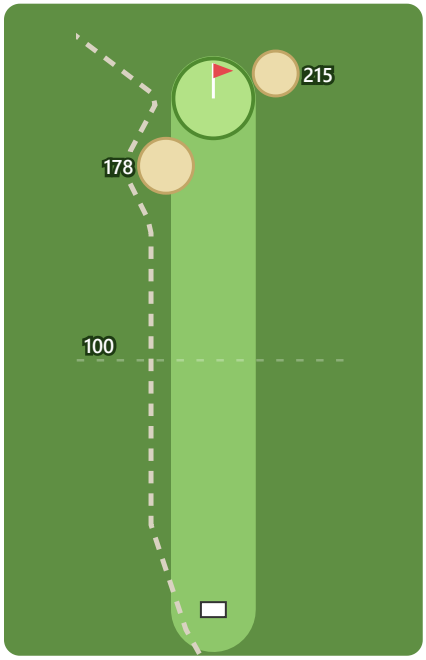
Hole 5 · Tide Line



Par	4
Yards	395 Club · 333 Forward · 415 Back
Wind	↘ 16 mph into you, from the left
Green	about 34 yards across, slopes 1.0% from front to back, speed 10.7
Hazards	Bunker 202 yd right · bunker 365 yd left (greenside) · water right from 211 to 363 yd

The aggressive line runs beside the tidal edge. A drive left of the ridge trades distance for a clean second shot.

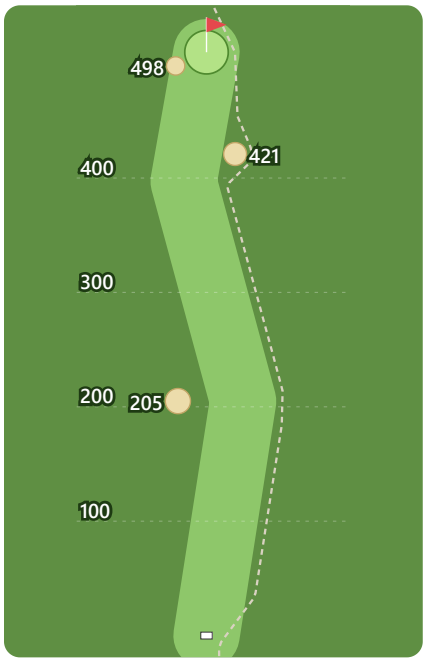
Hole 6 · Beacon



Par	3
Yards	205 Club · 172 Forward · 225 Back
Wind	↘ 18 mph from the left
Green	about 32 yards across, slopes 1.4% from front-left to back-right, speed 10.9
Hazards	Bunker 178 yd left (greenside) · bunker 215 yd right (greenside)

Pick a conservative number into the prevailing wind. The back shelf is a poor place to leave a downhill putt.

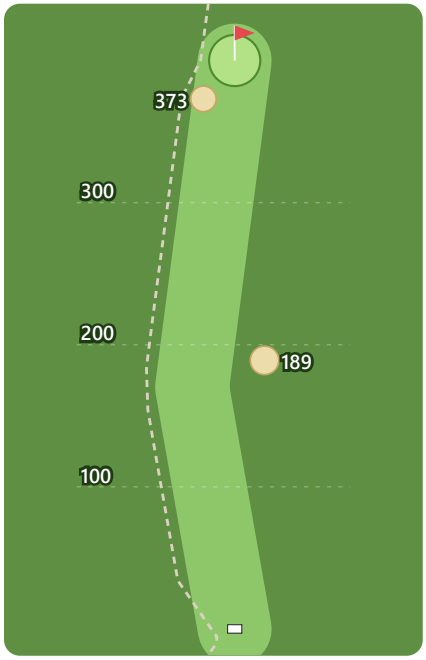
Hole 7 · Long Fold



Par	5
Yards	521 Club · 441 Forward · 541 Back
Wind	↖ 13 mph helping, from the right
Green	about 38 yards across, slopes 0.8% from back-right to front-left, speed 10.6
Hazards	Bunker 205 yd left · bunker 421 yd right · bunker 498 yd left (greenside)

A three-shot par five for most players. The fairway folds over successive dunes, making each layup position matter.

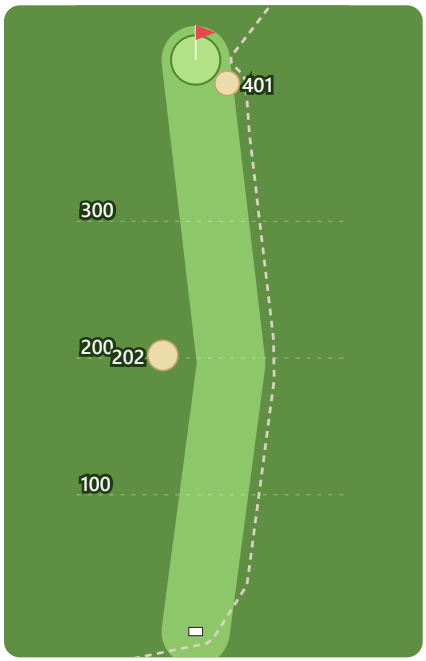
Hole 8 · Low Road



Par	4
Yards	405 Club · 342 Forward · 424 Back
Wind	← 11 mph from the right
Green	about 36 yards across, slopes 0.6% from back-left to front-right, speed 10.5
Hazards	Bunker 189 yd right · bunker 373 yd left (greenside)

The low road is visible from the tee, but its pot bunkers make a shorter second shot preferable to a reckless drive.

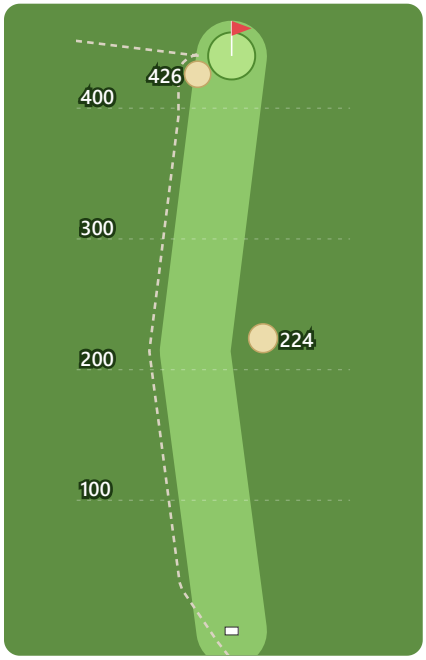
Hole 9 · Turnhouse



Par	4
Yards	421 Club · 355 Forward · 441 Back
Wind	↗ 15 mph helping, from the left
Green	about 36 yards across, slopes 1.1% from front-left to back-right, speed 10.8
Hazards	Bunker 202 yd left · bunker 401 yd right (greenside)

A demanding closing hole to the outward nine. Keep the ball below the pin and take par to the turn.

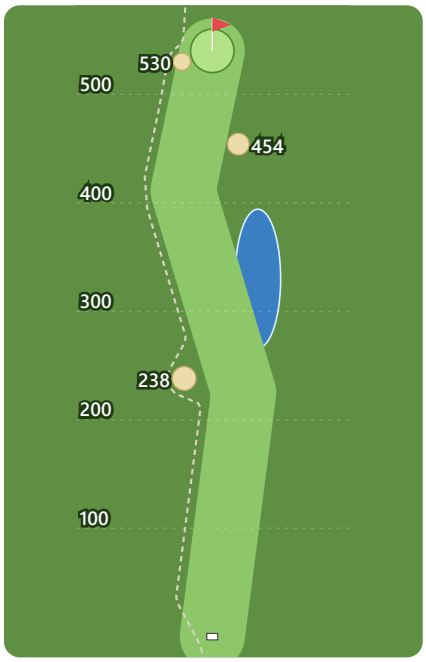
Hole 10 · West March



Par	4
Yards	444 Club · 374 Forward · 463 Back
Wind	↙ 13 mph into you, from the right
Green	about 36 yards across, slopes 0.7% from back to front, speed 10.6
Hazards	Bunker 224 yd right · bunker 426 yd left (greenside)

The back nine begins downwind. A firm drive up the left opens the green and avoids the right-side bunker line.

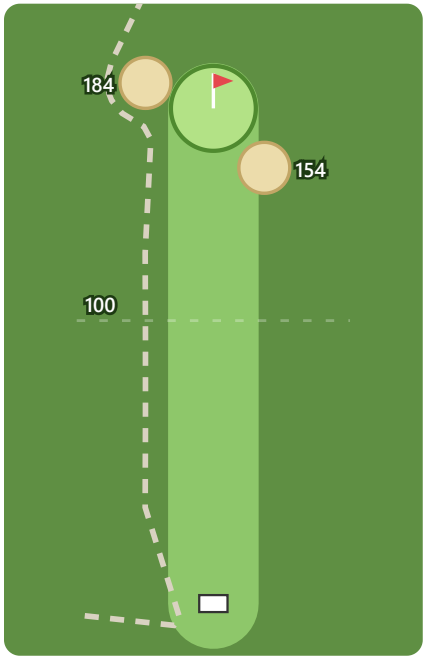
Hole 11 · Far Shore



Par	5
Yards	553 Club · 468 Forward · 573 Back
Wind	↑ 16 mph behind you (helping)
Green	about 40 yards across, slopes 0.8% from front-right to back-left, speed 10.7
Hazards	Bunker 238 yd left · bunker 454 yd right · bunker 530 yd left (greenside) · water right from 266 to 394 yd

Three shots into the wind for almost everyone. The safer route stays well left of the marsh at the second landing area.

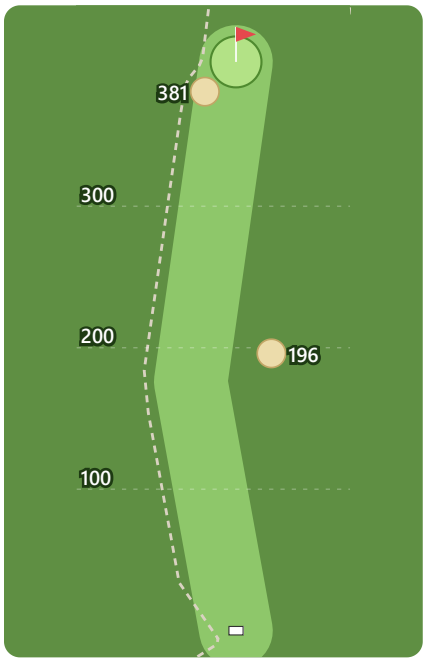
Hole 12 · Short Cape



Par	3
Yards	175 Club · 147 Forward · 195 Back
Wind	↗ 19 mph helping, from the left
Green	about 30 yards across, slopes 1.5% from left to right, speed 10.9
Hazards	Bunker 154 yd right (greenside) · bunker 184 yd left (greenside)

The card says short, but the wind rarely agrees. Use the open front and let the ball feed toward the middle.

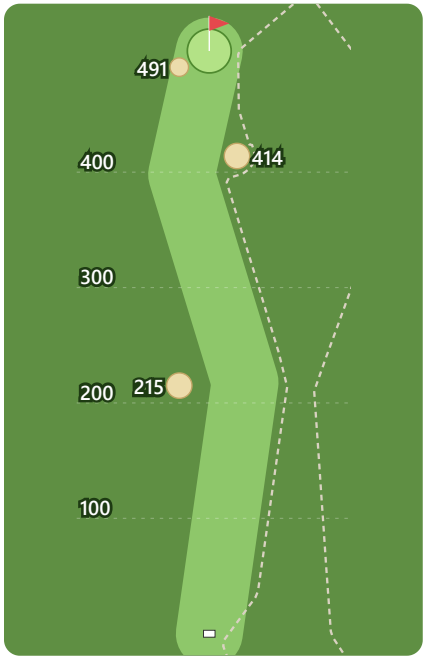
Hole 13 · Hollow



Par	4
Yards	407 Club · 345 Forward · 427 Back
Wind	↘ 12 mph into you, from the left
Green	about 36 yards across, slopes 0.9% from right to left, speed 10.6
Hazards	Bunker 196 yd right · bunker 381 yd left (greenside)

A hidden hollow splits the fairway. The conservative tee ball stays right; the bold line can leave a short iron.

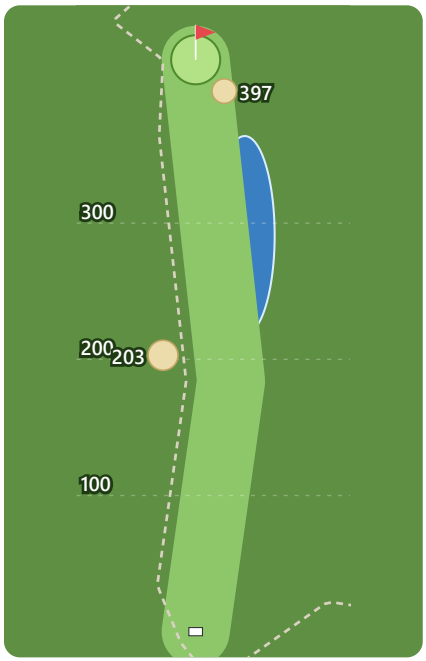
Hole 14 · Crossing



Par	5
Yards	518 Club · 438 Forward · 538 Back
Wind	14 mph helping, from the right
Green	about 38 yards across, slopes 0.8% from back-right to front-left, speed 10.7
Hazards	Bunker 215 yd left · bunker 414 yd right · bunker 491 yd left (greenside)

A sweeping par five with a diagonal bunker field. The crosswind decides which side the second shot can start from.

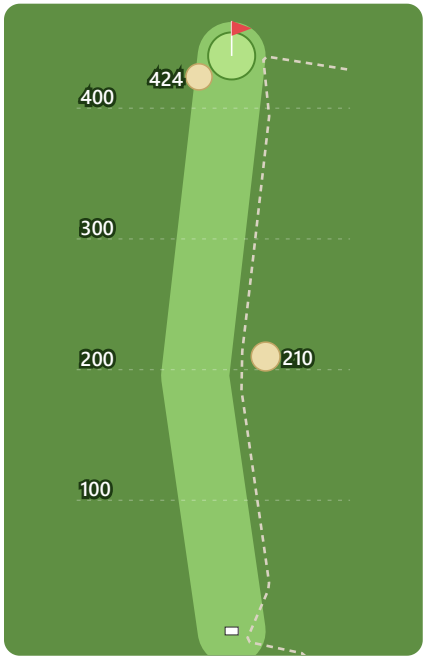
Hole 15 · Souter



Par	4
Yards	423 Club · 357 Forward · 443 Back
Wind	17 mph helping, from the left
Green	about 36 yards across, slopes 1.0% from front-left to back-right, speed 10.8
Hazards	Bunker 203 yd left · bunker 397 yd right (greenside) · water right from 218 to 364 yd

A coastal par four with little room for a miss right. The wide fairway is an illusion once the wind arrives.

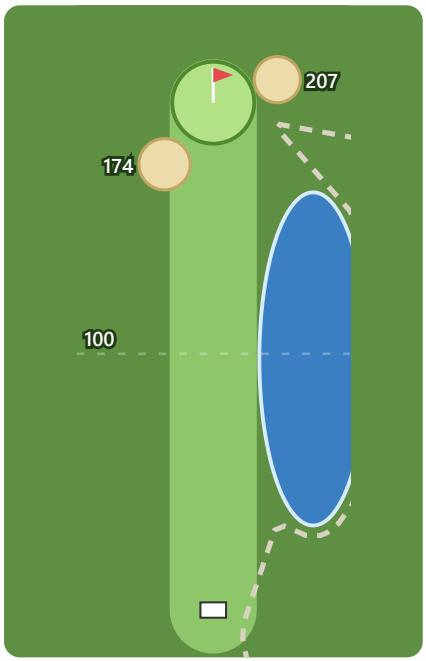
Hole 16 · Home Wind



Par	4
Yards	444 Club · 375 Forward · 463 Back
Wind	→ 18 mph from the left
Green	about 36 yards across, slopes 0.8% from back to front, speed 10.7
Hazards	Bunker 210 yd right · bunker 424 yd left (greenside)

This is the long walk home beside the coast. Keep the approach under the wind and accept the middle of the green.

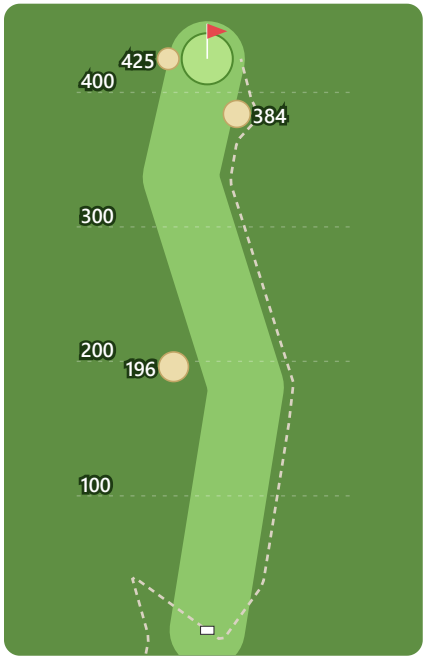
Hole 17 · Last Post



Par	3
Yards	198 Club · 166 Forward · 218 Back
Wind	→ 20 mph from the left
Green	about 32 yards across, slopes 1.3% from right to left, speed 10.9
Hazards	Bunker 174 yd left (greenside) · bunker 207 yd right (greenside) · water right from 33 to 163 yd

A final exposed par three straight into the wind. A low, committed flight is safer than trying to hold a high shot up.

Hole 18 · Greycap Home



Par	4
Yards	437 Club · 370 Forward · 457 Back
Wind	↗ 15 mph helping, from the left
Green	about 38 yards across, slopes 0.7% from back to front, speed 10.8
Hazards	Bunker 196 yd left · bunker 384 yd right · bunker 425 yd left (greenside)

The clubhouse finish rewards a precise final drive. The green opens from the left, but the best angle risks the deepest bunker.
